We would like to thank the above employees for making applicant referrals. Some of the individuals who were referred have been hired and many are in the interview and hiring process. HR will be contacting each referring employee whose referrals have been hired to ensure they receive their recruitment incentive.

Thanks again for getting involved to help us staff our much needed vacancies. Join the others and refer potential employees to the Human Resources Department. See details on the Employee Incentive Program on page 4.

Our employees are our best resource for recruitment.

Earn Extra Money... Recruit!

MCL employees have an opportunity to be directly involved in our staffing efforts for University Hospital through our new Recruitment/Referral Incentive Awards program. Employees who refer applicants that are hired will receive payment for that referral as indicated by rules of the program. Ron Broadus, HR Director says that this is a first for the state and the Civil Service Commission is quite interested in our innovative approach to filling our critical vacancies. Ron says that this is a unique approach to recruiting for the state but is one that the private sector has used for some time. Employees can earn an unlimited amount of extra money by participating in this program and help us to staff the much needed positions for UH. Ron encourages staff to “talk us up” and refer applicants. When staff refers someone for a job, they need to make sure the referred applicant identifies them as the person who told them about the job.

Look for the next issue of THIS WEEK to learn more details about this program.

Payment to Employee making referral:

Critical Shortage Category:

- \$150 when applicant has worked at MCL for at least 3 months.
- \$350 when employee has worked at MCL for 6 months.

Difficult to Fill Category:

- \$100 when applicant has worked at MCL for at least 3 months.
- \$300 when employee has worked at MCL for 6 months.

All payments will be paid as a lump sum.

Note: Any individual referred CANNOT be a hire from the Department Preferred Re-employment List (DPRL). Employees of the Human Resources Department are not eligible to participate in this program.
