

# Trauma Team Lecture Series

## A huge success!

Jody Zanca, RN, MN Program Coordinator of MCLNO Critical Care Services discussing "Neurological Assessment" of the trauma patient.

Najeeb Thomas, MD of East Jefferson General Hospital presents, "Spinal Trauma" of the injured patient.

**Trauma Team Lecture Series was a huge success for Trauma Services! On June 26, 2007, the MCLNO Trauma Services sponsored a Neurological Trauma Conference. The four hour course was presented by current experts in the field of Neurological Trauma which included Najeeb Thomas, MD, Frank Culicchia, MD and our very own Jody Zanca, RN, MN. The audience of, 70 members, was made up of participants from area hospitals and included all healthcare disciplines.**

**Trauma Services, in adherence to the American College of Surgeons Trauma Center standards, has developed this education series to provide educational offerings to the healthcare community.**

**Plans are underway for future Trauma related topics to be presented at West Jefferson Medical Center, East Jefferson General Hospital and Tulane University Hospital. MCLNO Trauma Services is proud to extend these educational offerings to all hospitals that care for injured patients in our region.**

### Trauma Team Lecture Series

### Collaborative Management of the Patient with Neuro Trauma

Frank Culicchia, MD of West Jefferson Medical Center explains the "Pathophysiology of Traumatic Brain Injury."
